

THE MAZARS YOUTH EMPLOYMENT MOVEMENT

Mazars Youth Employment movement aims to address the socio-economic issue of unemployment and lack of skills in South Africa. Over 50% of South Africa's working population are youth.

The initiative aims to achieve the following:

- Creating employment opportunities for youth by equipping them to navigate the transition into the world of work.
- Contributing to a key national and social initiative and having impact on the lives and futures of our youth, our economy and our country.

IMPLEMENTATION

Mazars identified willing youth from designated groups and provide them with an extensive two-month job readiness training programme with professional accredited training partners and job placement support services. Trencon made a large contribution to this initiative in 2016 and as a result 20 learners graduated on 8 May 2017.

WAY FORWARD

Successful learners will be supported and routed into job, study or internship opportunities with you, referred by you or supported by the project.

Trencon is passionate about training and skills development of the youth in our country.
